To Whom It May Concern:

I am writing to highly recommend Morgan Mickavicz to you. I have come to know Morgan well as her student teaching supervisor.

Morgan's dedication and her positive disposition have served her well in her student teaching placement. Morgan strives to create a nurturing and inclusive classroom in which all students are invited to learn. She models an interest in learning and encourages her students to persist in each challenge, as she differentiates to meet the needs of each.

Morgan Mickavicz understands the importance of connecting standards and anchors to lesson objectives and assessments. It is this understanding that supports the effectiveness of her engaging, thought stimulating lessons and leads students to attain intended outcomes. Morgan also incorporates a variety of technology in her lessons with purpose and with the varied needs of students in mind.

Morgan is a passionate teacher and has proven to be resourceful and independent whilst also actively working to attain the goals of the school district and university communities. She has exceeded every challenge faced in student teaching. As a parent of three daughters I can confidently say that I would be happy for Morgan to have taught my children and recommend her to you without reserve.

If you have any further questions please do not hesitate to contact me.
